Harvey has been a freelance sportswriter since the late 1980s. His British baseball stories have been published in Britain, the USA, and Canada. He has contributed to *Baseball America* for over 10 years. Harvey played baseball in England from 1988 to 2000, as an outfielder for the Croydon Blue Jays, Croydon Pirates, and Southern Tigers.

During his years in England, he did extensive research into the history of British baseball. He has interviewed many former players over the years. Harvey returned to his native city of Toronto in late 2000, but his research continues. Most notably, his first British baseball book, *The Blokes of Summer*, was published in 2011.
